

## Get your share of the E-Rate funds for your organization's upcoming telecommunications projects.

E-Rate is a great program for schools and libraries if you know how to take advantage of it - look to us to guide you through the process!

The Telecommunications act of 1996 created a program that now provides over \$2 billion per year for qualifying projects at both private and public schools and libraries. Thousands of organizations have taken advantage of it so far. However, just like many government programs, there is a strict process that needs to be adhered to. Often the process's complexity leads to failure to get the funds you may be entitled to. A partner like Relational Technology Solutions (RTS) can help make this process more manageable.

By partnering with RTS, you not only get the best-of-breed solution but also you get the best pricing under the E-Rate program. Furthermore, you get to benefit from our experience in managing through the program to ensure that you get the most funds for your project.

Our technology partners list reads like the who's who of the IT industry. We focus on delivering the right solution for your needs rather than try to fit a given technology into your organization. Some of the top partners are listed here:

- |                    |             |
|--------------------|-------------|
| > Avaya            | > HP        |
| > Cisco            | > IBM       |
| > Hewlett Packard  | > NetApp    |
| > Juniper Networks | > Symantec  |
| > Meru Networks    | > Polycom   |
| > Motorola         | > Microsoft |

To learn more about E-Rate and what RTS has to offer, simply contact your RTS sales representative or call us at 1-866-299-2134.
